About the Club

Our club is six years old and has increased in membership as our community has grown. We meet once a month and those interested in joining may attend one meeting prior to becoming a member. We would like to know in advance of guests outside of Montesa who wish to attend. We do not have a newsletter specific to the computer club, but items of interest regarding the computer club are published in the monthly hard copy community newsletter as well as on our community web site:

www.montesacommunity.org

We have just had installed a brand-new computer lab with 18 HP computers, a black and white/color printer, copy machine and overhead projector. We offer classes to our membership including Computer 101, Genealogy, PowerPoint and PrintMaster. We do not belong to the APCUG. We are in the process of re-vamping our club to bring in speakers every other month between November and April. All community residents would be invited to attend these presentations.
