About the Club

The doors to the meeting room are open at 5:45 p.m. We conduct a pre-session from 6:00 to 6:30 P.M. The general meeting starts at 7:00, announcements take about ten minutes and then the guest speaker is introduced. The speaker's presentation and Q&A (if desired by the speaker) are permitted for about 50 minutes. Vendors may sell product during the fifteen-minute break. Question and Answer sessions relative to the presentations are often held after the break following additional club business and announcements. The meeting ends with the drawings for raffle prizes. General Meetings are adjourned around 9:00. Audio Visual Equipment: Pima County Medical Society has no audio equipment for public address system. We use a full color video projector to display computer based presentations (NEC MultiSync MT830). It will handle 640 x 480: 60, 72, 75 and 85Hz vertical refresh, 800 x 600: 56 to 75 and 85Hz vertical refresh and 1024 x 768: Advanced AccuBlend resolution. Presenters are responsible for bringing their own computer. We cannot handle Apple/Macintosh computers. Be sure you know the procedure for activating your computer external display port. Wi-Fi is WPA secure and the SIP is available from the Coordinator or President.
