

# AZACC General Meeting 3/28/2009

Meeting called to order

Minutes accepted and approved with correction for email for Google Earth.

Treasurer's report accepted and approved. All clubs are currently current with dues.

Attendance report for the clubs was distributed and reviewed.

Clubs are providing reviews of the presenters and there seems to be a wide variance for the same presenters. This is probably a result of presenters having different performance levels depending on the days and working of the hardware/software. A Suggestion was presented that AZACC change the reporting form to include a numeric rating system that would remove some of the subjectiveness from the report. Speakers from Maricopa County attorneys' office are very good. Evaluation of local speakers is also very helpful.

Presentation VP is out of town and still don't have a presenter for April . Clubs will have to provide their own. Gene Barlow has asked for next year's dates already. Smart Computing and Dave Whittle would like to return as well. The remaining three months will probably be filled with Live Meetings, webinars and CD presentations. Will look at using Live Meetings for local presenters that can't make all of the clubs on a personal basis.

Research Project – AI has been gone for awhile due to a death in the family.

Live Meeting training is available on the APCUG site for free for members. Live Meeting is also available free for club meetings when reserved through APCUG. Live Meetings was explained to the group.

Website – Jim is out of town.

Local speakers have been updated with more to do. State and county attorney's offices added. A suggestion was given to link the speakers to the review page to find out how they were received. If clubs have a good speaker notify AZACC so they can be added to the site. Denise Crawford did a genealogy program and was well received. H & R Block and Data Doctors still need to be updated. If anyone knows of Data Doctor stores that are willing to participate let AZACC know.

Introduction of members

Discount member page will be updated and changed to be more user friendly.

Patricia presented information about the Southwest Computer Conference in San Diego.

APCUG Regional Conference has been changed to the APCUG Annual Meeting. This will occur in Feb. 2010. Planning meeting follows this meeting.

ASCLi meeting follows later today with Jeffrey presenting.

AZACC needs to know which clubs have high speed internet. An email will be sent to each club requesting information.

Door prizes.

Dismissed
